

AUSTRALIAN PRECISION TECHNOLOGIES

QUALITY POLICY

Australian Precision Technologies Pty Ltd. manufactures precision machined engineering components and builds assemblies, to satisfy customer specifications and delivery requirements.

The company commits to:

- Employing highly competent people throughout the organisation who are actively encouraged to continuously update their skills and take pride in the performance of their duties;
- Meeting all customer requirements & expectations;
- Meeting applicable statutory and regulatory requirements;
- Ensuring the viability of the company, our customers and suppliers;
- Continually improving our quality management system;
- Maintaining that employees accept their share of the responsibility of providing our customers with quality products and services.

To apply this policy, Australian Precision Technologies Pty Ltd. will satisfy the applicable requirements of AS9100.

Richard Weinzierl,

APT Managing Director
